About me

Hi, I'm a MERN stack web developer with a passion for coding and problem-solving. I have strong knowledge in HTML, CSS, and JavaScript, as well as with Node.js, React.js, and MongoDB. I'm eager to put my knowledge to use in a professional environment and look forward to contributing to the success of the team. I'm a fast learner who loves to challenge myself and take on new projects, always looking for ways to improve my development skills.

Summary

- Completed MERN Stack certification course at Pro Stack Academy.
- Hands-on knowledge in web development using HTML5, CSS, Bootstrap, JavaScript, ES6, Babel and React JS.
- Proficient in using React JS to build Single Page Application and soild understanding of Component, State,Props,Routng,Component Life Cycle methods.
- Developed certain features of the application functionality i.e,CRUD (Create, Read, Update, Delete) on both React and Nodejs with mongoDB.
- The back-end use of Node JS, Express JS Mongo DB and Mongoose,the comple MERN stack to provide RESTful API.
- Used Node Package Manager(NPM) to manage the modules and used it to install useful tools such as Express, Dotenv,chalk,morgan,mongoose,bcrypt.js and jsonwebtoken..
- Possess strong analytical skill, self-driven, keen to learn, adopt new technologies and process.

Projects

Portfolio [React]   Deployed link-click here

- Completely based on Fuctional Component and List and Conditional rendering, Hooks, Props, Event Handling and Binding.

Posts-User Application   Deployed link-click here

- Completely based on UseState and UseEffect Hooks using API's.
